

WATERGATE PLUS

Premium Synthetic Wall Wrap

Water Barrier

Water Vapour Permeable

Air Barrier

Fire Retardant

The National Construction Code now states that a permeable wrap must be used on all new builds in climate zones 6,7 & 8 for building classes 1,2 & 4. Watergate Plus is the solution.

Watergate Plus is designed to help manage condensation and moisture in relation to the building envelope. It keeps water out and allows water vapour to escape.

Watergate Plus is an industry leading wall wrap that is BRANZ Appraised, Codemark Certified and made under the ISO9001 quality management system.

- **Australian manufactured** - Watergate Plus is manufactured locally in Sydney
- **High Quality Assured** - Every batch is quality checked before dispatch. Watergate Plus has been in the Australian market for 8 years, with NO complaints
- **Cladding Warranty** - Doesn't affect your cladding warranty when used behind major cladding products

- **Timber and Steel Frame** - Can be installed on both timber and steel frames
- **Window Flashing Tapes** and other accessories also available, offering a complete One Wrap System.

Watergate Plus Premium Wall Wrap
