Build on NedZink

As a passionate player in the market for rolled Titanium Zinc (Nederlands Titaanzink (NTZ)), NedZink is inspired each day by the demand from architects, designers and users for existing and new possibilities. NedZink stimulates the achievement of durable and high quality construction projects with bright-rolled, pre-patinated and textured zinc. As a trading partner NedZink ensures reliable deliveries, knowledge, quality and service. As a market leader NedZink is an active promoter of creative zinc applications. NedZink is also aware of its responsibility with regard to people and the environment. Future-oriented business management and investments in up-to-date production techniques reinforce its market position, and create room for new developments. NedZink is part of the leading international holding company Koramic Investment Group. Production takes place in the Netherlands. There are sales offices in the Netherlands, Belgium and Germany.

NedZink. Think Zink.
